EXAMINER'S COMMENT

1. The title has been changed to --Method of making a lever device for clamps of a garment hanger--.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest a process for making a garment hanger having the lever portions which clasp the garment comprise a first portion having a step and a second portion covering the step wherein the second portion is welded to the first along the periphery using a shaped electrode such that only the material of the first portion fuses incorporating the material of the second portion which has a higher melting point and remains integral.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
